

Evidence, Argument, and Persuasion in the Policy Process

In modern industrial democracies, the making of public policy is dependent on policy analysis—the generation, discussion, and evaluation of policy alternatives. In modern industrial democracies, the making of public policy is dependent on policy analysis—the generation, discussion, and evaluation of policy alternatives. However, says the eminent political scientist Giandomenico Majone, this characterization of policy analysis is. This book challenges the common assumption that policy analysts engage in purely objective technical assessment of policy alternatives. It argues instead that .
